1. Fill in the blanks with appropriate words:

- a) Sea.
- b) Wells.
- c) Cloud.
- d) Vapour.

2. Identify true or false from the following statements and write down on your answer script:

- a) True.
- b) False.
- c) False.
- d) False.

3. Answer the following questions in one word:

- a) Rain.
- b) Stream.

4. Answer the following question in short:

- a) A stream is a narrow channel of water flowing down from mountain.
- b) We can purify water by filtering or boiling.
- c) We can preserve rain water in tanks, drums and buckets.
- d) The process of water changing into water vapour is called evaporation.
- e) The process of water changing to ice is called freezing.

5. Answer the following question in brief:

- a) We can save water in many ways.
 - 1. We should not let the tap run when we are brushing our teeth.
 - 2. We should not waste water during bathing or washing.
- b) The small water droplets join together to form bigger and heavy drops of water. The clouds cannot hold them any longer. So they fall down as rain.
