5. Why environmental problems are a threat to us in future?

After reading the whole chapter students will solve all the MCQ and CQ from text book and following MCQ and CQ.

MCQ:

1. What is the main source of light?
 - a) Electricity
 - b) Moon
 - c) Sky
 - d) Sun
2. Who protect us from different kinds of natural disaster?
 - a) River
 - b) Tree
 - c) Hill
 - d) building
3. Why the sea level is rising?
 - a) Water pollution
 - b) Melting ice
 - c) global warming
 - d) excessive rainfall
4. Which prevents us from ultra-violate rays of the sun?

- i) Ozone layer
- ii) Trees
- iii) Methane

Which one of the following is correct?

- a) i
- b) i&iii
- c) i&ii
- d) i,ii&iii

5. Which gases are responsible for rising temperature?

- i) Oxygen
- ii) Carbon dioxide
- iii) Nitrogen

Which one of the following is correct?

- a) i
- b) ii&iii
- c) i&ii
- d) i,ii&iii

Read the excerpt below and answer question number 6 & 7:
