## Chapter: Problems related to addition ,subtraction, multiplication and division

| Sheet no –3     |   |          |             |             |     |  |  |  |  |
|-----------------|---|----------|-------------|-------------|-----|--|--|--|--|
| 1.              | 1.72 page -7  |          |             |             |     |  |  |  |  |
| 2.              | 2.72 page -8  |          |             |             |     |  |  |  |  |
| 3.              | 3.72 page -9  |          |             |             |     |  |  |  |  |
| 4.72 page -10   |   |          |             |             |     |  |  |  |  |
| 5. 73 page – 11 |   |          |             |             |     |  |  |  |  |
| 6. 73 page – 12 |   |          |             |             |     |  |  |  |  |
| 7.              | 7. Write only correct answer:   |          |             |             |     |  |  |  |  |
| 1)              | ) There were 72 apples. Minu took 6 apples from them and distributed the rest equally to his 6 friends. How many did each his of friends get? |          |             |             |     |  |  |  |  |
|                 | a.18  | b.11     | c.89        | d. 91       |     |  |  |  |  |
| 2)              | ) Gita's weight is 10 kg .Her father's weight is 8 times more than her weights .What is her father' weight?                                   |          |             |             |     |  |  |  |  |
|                 | a. 80 kg  | b.70 kg  | c.59 kg     | d.98 kg     | 5   |  |  |  |  |
| 3)              | Your mother is 10 years younger than your father and your mother's age is 4   |          |             |             |     |  |  |  |  |
|                 | years. If your father is 5 times older than you, how old are you?   |          |             |             |     |  |  |  |  |
|                 | a. 9 years  | b. 10 ye | ars c.5 yea | irs d.8 yea | ırs |  |  |  |  |
| 4)              | ) Ruma bought some eggs and paid 90 taka, if the price of one egg is 9 taka,  |          |             |             |     |  |  |  |  |
|                 | how many eggs did Ruma buy?   |          |             |             |     |  |  |  |  |
|                 | a. 4  | b. 32    | c. 11       | d. 10       |     |  |  |  |  |
|                 |   |          |             |             |     |  |  |  |  |

| Date: 29/10/2020            |  |   |        |        |  |  |  |  |
|                             |  |   |        |        |  |  |  |  |
| 5)                          | 6 persons equally divided 42 lozenges .How many lozenges will each person get?   |   |        |        |  |  |  |  |
|                             | a. 4   | b. 2  | c. 8   | d. 7   |  |  |  |  |
| 6)                          | groups will be there   | •   |        |        |  |  |  |  |
|                             | a. 111   | b. 101  | c. 110 | d. 100 |  |  |  |  |
| 7)                          | 4 students sit on or students?   | tudents sit on one bench .How many benches will be necessary for 400 dents? |        |        |  |  |  |  |
|                             | a. 400   | b. 500  | c. 800 | d. 100 |  |  |  |  |
| 8)                          | There are 14 apple   | here are 14 apples in a packet. There are 226 apples in another packet.     |        |        |  |  |  |  |
|                             | if the two packets are putting together, then how many apples will   |   |        |        |  |  |  |  |
|                             | be there in those two packets?   |   |        |        |  |  |  |  |
|                             | a.154  | b. 240  | c. 200 | d. 100 |  |  |  |  |
| 9)                          | There are 600 apples in a packet. From these 100 apples are kept aside. The remaining apples are distributed equally among 5 workers. How many apples does each get? |   |        |        |  |  |  |  |
|                             | a.111  | b.211   | c.311  | d.100  |  |  |  |  |
|                             |  |   |        |        |  |  |  |  |
|                             |  |   |        |        |  |  |  |  |
