Let-7

Pg-72

3) 2 persons equally divide 8 mangoes. How many mangoes will each person get?

Solⁿ:

2 persons get 8 mangoes

So 1 person gets $(8 \div 2)$ mangoes

=4 mangoes.

Ans: 4 mangoes.

4) 4 persons equally divide 24 lozenges. How many lozenges will each person get?

Solⁿ:

4 persons get 24 lozenges

**So 1 person gets $(24 \div 4)$ lozenges
=6 lozenges**

Ans: 6 lozenges.

5. 3 person equally divide 27 taka. How much taka will each person get?

Solⁿ:

3 persons get 27 taka

**Therefore 1 person gets $(27 \div 3)$ taka
=9 taka**

Ans: 9 taka.
