

Exercise Sheet-5

Date: 08.06.20

- 1) How many legs do the hen have? How many legs do 9 hens have altogether?
- 2) A bus have 4 wheels .How many wheels will be needed for 7 buses?
- 3) Mina's father works 5 days in a week. How many days will he work in 9 weeks?

Solution

1)

We know,

1 hen have 2 legs

Therefore 9 hens have (2×9) legs

=18 legs

Ans: 18 legs.

2)

1 bus have 4 wheels

Therefore 7 buses have (4×7) wheels

=28 wheels

Ans: 28 wheels

3)

1 week Mina's father work 5 days

Therefore 9 weeks Mina's father work (5×9) days

=45 days

Ans: 45 days.
