Exercise Sheet-10

Date-17.05.20

1.Moni can read a book 15 pages a day. How many pages of this book can she read in 7 days?

2.Roni's father works 14 hours a day. If he works 5 days then, how many hours will he work?

3.Rana wants to buy 6 copies of a book on fairy-tale whose price is 40 Taka each. How much taka will he pay?

Solution

1.

1 day Moni reads 15 pages

Therefore   7 days Moni reads (15×7) pages

=105 pages

Ans: 105 pages.

2.

1 day Roni's father works 14 hours

Therefore 5 days Roni's father works(14×5) hours

=70 hours

Ans: 70 hours.

3.

1 copy price is 40 taka

Therefore 6 copies price is (40×6)taka

=240 taka

Ans: 240 taka.
