Class – 3

Living and Non-Living Things

Day 1 (05.05.20)

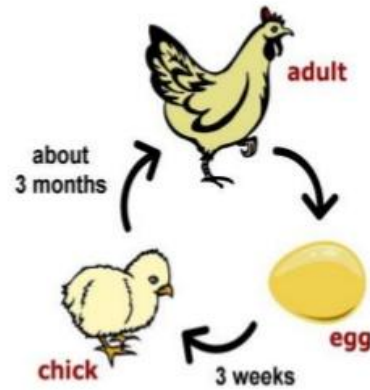

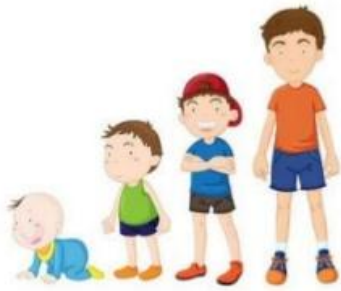

Living things – The things that are now or once were alive.

Characteristics of living things:

- Living things can grow
- They can change
- Living things need water, food and air to survive
- They can breath
- They can eat
- They can produce other living things

Living Things: Grow And Change

Living things **grow and change** through out their life.

Living things can eat

Living things need water to survive

Non-living things – Anything that was never alive.

Characteristics of non-living things:

- They do not eat
- They do not grow
- They can not reproduce

Exercises for Day 1

- a) What are “living things”?
- b) Define “non-living things”.
- c) Write three characteristics of living things.
- d) Write three characteristics of non-living things.
