Class: 3

Subject: Science

Chapter: Living and Non-Living Things

Lecture sheet: Day 4

Class date: 16.05.20

Exercises for Day 4

- a) Mention the types of animals. (short question)
- b) Define "backbone". (short question)
- c) Explain vertebrates and invertebrates with examples. (broad question)

Answers

- a) Types of animals:
 - > Invertebrates
 - Vertebrates
- b) <u>Backbone:</u>

A series of bones that helps to support the animal's body is called backbone.

c) <u>Vertebrates:</u>

The animals which have backbones are called vertebrates.

Example: Snake, Chicken

Invertebrates:

The animals which do not have backbones are called invertebrates.

Example: Butterfly, Shrimp
