Lecture Sheet of Chapter-7, Section-1

Good Health and Yoga

Lecture Sheet-1

Date: 10/08/2020

Good Health: To keep body and mind sound is called good health. And to keep health means to keep both body and mind well. If one's body and mind is not well, we can't perform even our religious rites properly. So it is said, "Shariram adyam khalu dharmashadhanam". It means- First we have to give attention to our body properly, then practice of religion.

Rules of Keeping Good Health: To keep the body healthy some rules are- regular sports, exercise, Yoga, balanced diet, occasional starvation, to keep the mind merry in all situations both weal and woe.

Yoga Exercise: To control respiration, special methods for bodily movements or postures of sitting, all these in a word, is called Yoga exercise. The yoga exercise is one of the ways to keep health controlling both body and mind. Many, many days ago, saints and sages invented the methods of Yoga beside the medical science to keep sound mind in a sound body.

Meanings of Yoga: The word Yoga has two meanings. One is unification to Ishwara and the other is control over the act of thought.

Necessity of Yoga Exercise: The necessity of Yoga exercise is immense. **Some of them are given below:**

- i) Memory power increases.
- ii) Nerves become fresh and muscles strong.
- iii) Constipation is removed.
- iv) Resistances power increases.
- v) Some diseases are cured.
- vi) The strength of body and mind increases.

Balanced Diet: To take proportionate and nutritious food and clean water is called balanced diet. Diet is needed to compensate the loss, help the growth, the power of energy and the resistance of the body. That diet must be proportionate and nutritious. But, generally we prefer palatable food.

Results of Over Eating: Too much eating or disproportionate food is harmful to health. We can fall ill by over eating. So, Sree Ramakrishna Paramhangsa says, "Eat less if you want to have much."

Good Health and Yoga

Lecture Sheet-2

Date: 10/08/2020

Results of Less Eating and Inadequate Food: If we won't take any food or less food, it will not compensate the loss of body and hence we will lose our energy for work. We will be weak. We will be inactive and then it will be destroyed. Then there will be an end to our life. Inadequate food sickens our body and mind. Sometimes, we collapse too.

Starvation or Fasting: To make an interval for taking food and drink is called starvation or fasting. The other name of starvation is hunger. In other words, starvation is called 'Upos'.

Benefits of Starvation or Fasting: Starvation increases the physical capacity for taking food and strengthens immune power. It can make me habituated to eating balanced diet. It keeps body and mind fit for worship. It teaches us to be self-controlled. The first step of adoration is self-control which we can attain through starvation.

Relation of Religion with Yoga: There is a close relation between religion and Yoga, because Yoga is a part of religion. The body needs to be sound and fit so that we can worship properly. That is why, to worship properly, we need to have a sound body and sound mind. And Yoga is one of the ways to keep health controlling both body and mind. Yoga prepares one to connect with God. It indicates relationship between religion and Yoga.

Starvation or Fasting as a Part of Religion: Fasting or starvation is a part of religion, because it teaches us to be self-controlled. And, self-control is one of the best attributes of religion. Fasting or starvation makes our body and mind prepared to unite with Ishwara. We fast at puja-parvana and at the time of performing religious rituals. We take food breaking our fasting when the puja is over. So, it can be said that fasting and religion are closely related and fasting is a part of religion.

Tithies those are Important for Special Fasting: Our body will go inactive if we totally starve. Again too much eating is also harmful for our body. So, in the Hindu scriptures, there is advice for regulated starvation along with proportionate food. So, the Hindu religion gives importance for starvation or taking light food on the particular days of 'Ekadashi' or eleven, 'Purnima' or fifteen and on the last day of the dark fortnight or 'Amavasya'. Moreover, we fast at puja-parvana and at the time of performing religious rituals.

Chapter-7, Section-1 (Good Health and Yoga)**3. Answer to the following short questions:**

- a) What is called Yoga exercise?
- b) What do you understand by fasting?
- c) What is meant for diet?
- d) What happens when food is not taken at all?
- e) Write a way how to keep body well.
- f) What is called health?
- g) What do you mean by to keep health?
- h) What are the rules to keep the body healthy?
- i) How many meanings does the word Yoga have? What are these?
- j) What is balanced diet?
- k) Why is diet needed? How should be our diet?
- l) What type of food do the people generally prefer?
- m) What type of food is harmful to our health?
- n) What did Sree Ramakrishna Paramhansa say about over eating?
- o) What is the other name of starvation?
- p) What is called Upos?
- q) What makes our body and mind ready for unification with Ishwara?
- r) What is one of the best attributes of religion?
- s) Why is inadequate food also harmful to health?

4. Answer to the following broad questions:

- a) Give a clear conception about the Yoga exercise.
- b) Explain the necessity of Yoga exercise.
- c) What do you understand by balanced diet?
- d) Explain the relation of religion with Yoga.
