Subject: BGS

REVISION

Chapter-02 (Bangladesh and World Civilization)

Creative question:-

1. Monira is a student of class six. During her winter vacation she went to visit her uncle's house Bogra. One day she visited a historical place in Bogra with her cousins. She is very pleased to visit there. After came back to Dhaka she told her mother that she wants to know more things about that place.
 - a) Bogra is standing by which river?
 - b) Why most of the civilizations were developed on the bank of the rivers or seas?
 - c) Uari- Bateshwar was the second civilization of Bangla. Explain.
 - d) Wheredid Monira visit? This place had an importance in trade and commerce. Give your opinion in support of your answer.
- 2.

Great Wall

- a) When did Egyptian civilization develop?
 - b) Which things were found in Indus civilization?
 - c) Which civilization is shown in the stem? Discuss about the civilization in brief.
 - d) Most of the ancient civilizations were developed in Asia and Africa. Write some civilization in the light of your book.
3. Most of the civilizations were developed on the bank of the river or seas. Egyptian civilization is the oldest civilization of the world. Most of the ancient civilizations were developed in Asia and Africa. At that time two important civilizations were developed in Europe.
 - a) How many contributions had the Persian civilization?
 - b) Who contributed much to develop Persian civilization?
 - c) In the contemporary time of Greek civilization, urban civilization developed in Rome as well. Explain
 - d) Mesopotamian Civilization contributed to various field.---Evaluate this statement.

4. Scenario-1:

Mitu's class teacher was showing a video in the class. There they watched that people were growing various kinds of food grains by utilizing river water. Having food sufficiency, they made wheeled cars using their knowledge. They changed their condition building houses in a new way.

Scenario-2:

Rafi along with all his villagers dug small drains to solve the problem of water-logging and made connections with large drains. He started using dust- bins at particular places to stop indiscriminate disposal of waste.

- a) Where is the most ancient monument of Bangladesh situated?

- b) Why are the ancient Buddhist viharas compared with residential universities?
- c) What are called the changes that Mitu watched in video? Explain
- d) “The influence of Indus civilization is noticed in the work of Rafi”---Evaluate the statement.

Ans:

- a) The most ancient monument of Bangladesh is situated in Narsingdi District/ WariBateshwar.
 - b) In the second urban civilization, there were many prosperous cities where commercial and cultural institutions were made. Ancient Buddhist vihara was one of them. It was huge and made of ancient bricks and lime stone, which looked like residential universities of modern civilization.
 - c) In the scenario-1, we can see the changes of civilization. In ancient time, people used to cultivate land and produce various kinds of food grains. They also used to build houses by their own. They did not have any modern technologies. They used to do all things by their own. But now, people use different methods for cultivation. Besides they made wheeled cars using their knowledge. They changed their conditions building houses in new way. This change came into their life because of the change of civilization. With the changing time, people get to know about technologies and using this in their life.
 - d) In the scenario-2, Rafi along with all his villagers were working together for the betterment of their society by making large drains and by stopping indiscriminate disposal of waste. By this work, they are making their society clean and doing a good work. In this work, Indus civilization is reflected in a great extent. In the earliest civilization of India sub-continent is Indus Civilization. This civilization was developed in 2700 BC. In here, advanced planning was found. City roads, dustbins, road light, drainage system. The systems were well planned. In every house, there were wells of water. Domestic waste water fell into large drains through small drains. All these system were planned in that civilization and in Raf’s work, the influence of Indus Civilization is noticed by the process of solving water issues. So this statement is justified.
5. Identify the names, time and important contributions of the ancient civilization.

Name of the civilization	Time	Contribution
