

# Chapter 12

## Lesson 3

### History of Evolution of Clothes or Dresses

When was the dress created? Nobody knows. According to the historians, from the ancient time people are covering body. In ancient era, people used to cover the body with the bark from tree, leaves, skin of animals, feather, ornament etc. People used to tie the hoof skin at the backside of neck to cover shoulder and chest and if the skin was larger, they used to tie it on neck as well as on west.

Gradually people invented the system of sewing. They made thread from the vein of dead animals and invented needle from the thin bone and sewed the skin to wear. That type of cloth was secured. After that people made tent with the sewed skin to be safe from cold, heat and rain. Then they processed leather more and manufactured comfortable, updated and long-lasting clothes.

Image 1: History of Evolution of Clothes or Dresses

In the ancient time, there was spinning machine. People used to make clothes by cutting thread.

Later on, people manufactured cloth from the thread which is made of the natural vegetable fiber, hair or fur of the animal, saliva of cocoon etc. and cut the clothes and start making dresses.

Several machineries, factories were invented. People invented artificial fiber by mixing chemical elements and thus preparing textile from those fibers; and was able to make dresses with those textiles.

The diversity has come in manufacturing fabric as well as design of dresses. But it varies depending on the country, time and religion.

## Tasks:

Exercise: Solve the MCQ (1 to 4)

Write CQ 1 & 2 from exercise

### CQ 1 (Hints)

- a. Basic needs (how many?) (read again Clothing)
  - b. The nurses wear something special... (Lesson 2 read again)
  - c. Shova's cloth was soft, comfortable, loose and easily wrinkled. So the fabric will be...what?. Think again (Lesson 1)
  - d. Reba's fabric does not get wrinkled.
- [c, d questions are telling about two different fabrics. The answer will be to the point. Explain shortly. No need to make it too long.]

### CQ 2 (Hints)

- a. Give the definition of knitted fabric
- b. [In first para, write the definition of self-protection. Explain it in 2<sup>nd</sup> para]

Self-protection is keeping oneself safe from injury or damage.

[Explain Now]

- c. Brazil's jersy is the combination of green and yellow. These two colors represent the country. So Rahat can easily identify the Brazil team.
  - d. Same thing here. Just explain nicely.
- [No need to make it too long.]
