Date: 29/09/2020

Chapter: Measurement

Lecture -2

Relations:

10 millimetres = 1 centimetre

100 centimetres = 1 metre

1000 metres = 1 kilometre

*** you can add only same unites .

ie . you can add only millimetres with millimetres.

You can't add millimetres with others.(km or m or cm)

1mm+1mm=2mm but 1km +1mm=1km 1mm

Assess your learning

1. (NTCR Book 97 Page)

Fill in the blanks with appropriate numbers.

1. 15 centimetre = _____ milimetre
2. 29 centimetre = _____ milimetre
3. 59 centimetre 6 milimetre=_____ milimetre
4. 5 meter = _____ centimetre
5. 7 metre 50 centimetre = _____ centimeter
6. 7 Kilometre 350 metre = _____ meter
7. 34 metre 68 centimetre = _____ centimeter

Class: 3

8. 1 meter = _____ milimetre

9. 3 meter 24 centimetre = _____ milimetre

Extra

10. 4 meter 74 centimetre = _____ milimetre

11. 8 meter 23 centimetre 9 millimetre = _____ milimetre

12. 5 meter = _____ milimetre

2. Match the following columns with the correct answer.

Column A	Column B
a. 15 centimetre	1. 8350m
b. 5 meter 24 centimetre	2. 5200 cm
c. 8 Kilometre 350 metre	3. 7463 m
d. 7 Kilometre 463 metre	4. 5240 cm
	5. 7460 m
	6. 150mm
