Bring Radiant Way and Nelson's Spelling every Thursday.</p>	<p>Homework: Following the given case study/story, Write a short composition about how to clean water from the polluted river..</p> <p>Case study: A Story of Polluted Water: The Buriganga River Once upon a time, there was a beautiful river named Buriganga. It flowed through the city of Dhaka in Bangladesh. The people loved to play and swim in its clean, clear waters. The fish were happy and healthy. But then, people started throwing their garbage into the river. They also washed their clothes and dishes in it. The water became dirty and smelly. The fish started to die. One day, a little girl named Maya went to the river to play. She saw the dirty water and the dead fish. She felt very sad. Maya decided to do something about it. She talked to her friends and family about the problem. Together, they cleaned up the river and stopped throwing garbage into it. They also planted trees near the river to help keep the water clean. After a few months, the Buriganga River started to look better. The fish began to return. The people were happy to see their beautiful river clean again. Maya and her friends learned that everyone can help keep the water clean and healthy.</p>
